

# Accounting for Commitment

Diane Ackroyd FMAAT is celebrating winning a prestigious award for her commitment to professional development. The annual award is presented to AAT members who show commitment and achievement in continuing professional development and it's a bonus too for Diane's clients who benefit from her up to date knowledge.

Diane who has worked in all areas of accounting practice for 28 years, set up her own accountancy practice "Additions Accountancy Services" from her home at Crow Wood Park, Halifax 2 years ago.

Diane strongly believes that keeping her skills and knowledge up to date helps her get the best possible entitlements for her clients using up to date information and legislation.

Additions Accountancy Services offers excellent value for money. As a home based business, the overheads are low and so allowing Diane to offer smaller business, sole traders, partnerships etc a reasonably priced service. Costs for a sole trader's accounts and tax return are usually £150 - £300 per year, depending on the level of work involved and a monthly standing order facility is available to help spread the cost.

"Our aim is to make it easy for the client; we can do any level of service you require from simple year end accounts & tax returns, to a complete book keeping & payroll/CIS service and also limited company accounts and compliance"

"Our aim is to make it easy for the client"

**The first hour consultation is free and Additions accountancy will come out to meet you saving you time and effort so why not ring up and find out how much you could save?**
